

Adopt SafeArt

Who is SafeArt? A non-profit Health and Arts organization based in downtown Chelsea. We believe in the power of the creative expression to create personal and social change. We are engaging the arts and working to change the culture of violence in Orange County, Vermont through women's groups, youth groups, school residencies, and community performances by the SafeArt Teen Ensemble.

Who are you? A local business who supports our mission and is able to help us spread information and receive donations.

What will SafeArt do?

- SafeArt will post a link to your website and information about your organization on our homepage as our partner of the month.
- SafeArt will include information about your organization in our quarterly newsletter with lauding appreciation.
- SafeArt will give you a piece of Safe Art created by a SafeArt group and signed by members of SafeArt as a token of our appreciation

What will you do?

- Host SafeArt's "Making Change with Change!" box and SafeArt brochures by your cash register for a month.
- If possible/desirable – post something on your website, or include SafeArt in an Ad in the local newspaper

Together we can normalize the conversation about abuse and spread awareness and healing!

To adopt our "Making Change with Change" Box, please call or email us:
